THE ONLY LOCK YOU CAN RE-KEY IN SECONDS!

What is SmartKey?

SmartKey™ is a technology that allows you to re-key a lock in just seconds while improving security without removing the lock from the door.

How Does it Work?

SmartKey™ has a patented side locking bar technology that replaces the traditional pin and tumbler design. This new design includes BumpGuard™ for improved security against lock-bumping, an attack technique that can defeat traditional pin and tumbler locks.

SUPERIOR SECURITY

It's why we buy locks in the first place. With SmartKey™ technology from Weiser you are guaranteed to have one of the most secure residential deadbolts on the market.

ANSI Graded Deadbolts

Deadbolt locks are rated by an independent agency (ANSI) on a grade scale; with Grade 3 being good, and Grade 1 being the best.

How does SmartKey rate?

All of our SmartKey deadbolts are ANSI rated and approved. In our Collections family of products, many of our SmartKey deadbolts are rated as Grade 1 – providing you with the very best residential security on the market and featuring the highest level of pick resistance available.

Available in All Weiser Keyed Functions

Deadbolts

Handlesets

Levers

Knobs

BEFORE YOU START...

These steps show you how to change from the current key that operates the lock to a new key you want to operate the lock. For new purchases, the current key is the one that was supplied with the lockset.

Be sure to install the product on the door first, prior to rekeying.

These instructions illustrate a deadbolt for demonstration purposes, but these SmartKey rekeying instructions also apply to keyed knobs, levers, and handlesets.

DEFINITIONS

www.weiserlock.com/smartkey

STEP 2 INSERT AND REMOVE SMART KEY TOOL

STEP 1 TURN TO LEARN POSITION

STEP 3 LEARN NEW KEY

Slow the Growth of Bacteria

Weiser® and Microban®, the global leader in built-in antimicrobial protection, have teamed up to improve the standard for door hardware. Weiser® offers antimicrobial protection on select products, inhibiting the growth of bacteria on frequently touched door hardware in the home.

Benefits of Door Hardware with Microban® Technology

Bacteria can double every 20 minutes on unprotected surfaces, but door hardware with Microban protection works to continuously fight off microbes.

- Door hardware is 99.9% cleaner than knobs without Microban
- The antimicrobial coating last for the lifetime of the hardware finish, so you can worry less and feel more secure in your home.
- 24/7 Antimicrobial protection
- Microban protection is effective against a broad spectrum of bacteria

Microban finish is available on select products.

Look for the Microban sticker:

GU-SECURY Automatic Lock

SIMPLY CLOSE THE DOOR

European technology in a North American Lock.

By simply closing the door the upper and lower 3/4" (20 mm) latchbolts will instantly engage.

By turning the key from outside or the knob from inside it will engage the 1" central deadbolt and block the top and bottom latchbolts to become a 3-deadbolts locking system.

The Advantages

- 1** The top and bottom 3/4" (20mm) tempered steel latchbolts always engage behind the keepers upon closing the door:
 - give more security
 - give better weather sealing performance
 - help reduce door warpage
- 2** No lifting of the handle to engage locking points
- 2** 1" (25mm) central deadbolt
- 3** 90 degree rotation of thumbturn or US-cylinder engages the deadbolt
- 4** Reversible latch
- 5** High grade 16mm Stainless Steel faceplate for higher corrosion resistance. Radius ends for a clean look and easy installation
- 6** Available in 50 and 60mm backsets for 6' 8" and 8' doors. Extension with additional lock point is available for doors taller than 8'

USE WITH GRIPSET HANDLES ONLY

SECURY Automatic Door Lock for Gripset Handle

Description	Backset	Color	PU	Part Number
Door lock for 6' 8" doors	60mm	SS	5	6-35185-01-R-8B
Door lock for 8' doors	60mm	SS	5	6-35185-02-R-8B

PU = Packaging Unit

Simply Close the Door!

As soon as the door pulled shut, the Automatic latchbolts instantly throw 20mm and are secured to prevent them being forced back. By turning the key or the knob, it will engage the deadbolt and lock the top and bottom latchbolts to become a **3 deadbolts locking system**.

Additional information

- 3-point, one piece locking system for 6' 8" and 8' doors
- Heavy duty mortise construction
- Locking by US-cylinder with 90° turn of key or thumb-turn
- No lifting of handle to engage locking points
- Top and bottom Automatic latchbolts projection from 10 to 20mm:
 - provide security against forced entry
 - protect the door panel from warping
- 1" (25mm) drow on deadbolt with baby sitting function
- Non handed, latch easily reversible
- 8mm square spindle
- 92mm centres (spindle to cylinder)
- Handle height variable (36" recommended)
- 16mm stainless steel faceplate with radius ends for easy installation and cleaner look
- Same hardware groove detail throughout our entire door lock program (jig, router base and bits available)
- Extension with additional lock point is available for doors taller than 8' (6-33479-04-0-8B)
- To be used with gripset handle

Door lock for 8' doors	50mm	SS	5	6-36033-02-R-8B
Door lock for 6' 8" doors	60mm	SS	5	6-35565-01-R-8B
Door lock for 8' doors	60mm	SS	5	6-35565-02-R-8B
PU = Packaging Unit				

Simply Close the Door!
As soon as the door pulled shut, the Automatic latchbolts instantly throw 20mm and are secured to prevent them being forced back. By turning the key or the knob, it will engage the deadbolt and lock the top and bottom latchbolts to become a **3 deadbolts locking system**.

- Additional information**
- 3-point, one piece locking system for 6' 8" and 8' doors
 - Heavy duty mortise construction with reinforced lever return spring system
 - Locking by US-cylinder with 90° turn of key or thumb-turn
 - No lifting of handle to engage locking points
 - Top and bottom Automatic latchbolts projection from 10 to 20mm:
 - provide security against forced entry
 - help prevent air infiltration from gasket
 - protect the door panel from warping
 - 1" (25mm) throw on deadbolt with baby sitting function
 - Non handed, latch easily reversible
 - 8mm square spindle
 - 92mm centres (spindle to cylinder)
 - Handle height variable (36" recommended)
 - 16mm stainless steel faceplate with radius ends for easy installation and cleaner look
 - Same hardware groove detail throughout our entire door lock program (jig, router base and bits available)
 - Extension with additional lock point is available for doors taller than 8' (6-33479-04-O-8B)
 - To be used with lever handle set (US-cylinder above handle)

Automatic Extension

with Additional Latchbolt

Extension with Additional Latchbolt

Description	Color	PU	Part Number
525mm extension with rounded end	Stainless Steel	5	6-33479-04-0-8B
* = Color		PU = Packaging Unit	

Additional information

- Tapered latch always engaging in strike plate
- 16mm stainless steel faceplate with radius end for easy installation and cleaner look
- Additional locking point for doors taller than 8'
- To be used with GU-SECURY Automatic door Locks
